January 11, 2018

## CITRUS OILS MICROBIOLOGY STATEMENT

Greenwood Associates, Inc. does not perform microbiological testing on citrus oil products. Scientific evidence indicates that pathogenic bacteria such as Salmonella, enteric bacteria such as coliform, and spoilage organisms such as yeast and mold are incapable of growing in cold pressed citrus oil. A full list of citrus oil products can be found by visiting our website: <http://www.greenwoodassociates.com/products.html>.
